Objective Statement

Naturally creative problem solver with excellent interpersonal and organisational skills obtained through various customer service and administration roles. Self-taught in a wide variety of computer languages, frameworks as well as the principles of website development. I aim to secure a position as an Entry-level Front End Developer with a company who wants to attract and nurture talented people.

Strengths

Key Competencies

- Solid understanding of core front end technologies: HTML, CSS and JavaScript
- Competent at frameworks and libraries such as React.js and Bootstrap
- Experienced with tools like SASS, Linux and Git

Personal Skills

- I possess an exceptional work ethic coupled with a strong desire stay current by learning and practicing new techniques
- Able to work in a multi-disciplined environment that includes accountants, consultants, administrators and trustees.
- A life-long learner who welcomes criticism to learn from it
- Keen eye for detail and good product design

Experience
